

Use of Moving and Still Images of Students to Celebrate Achievement and Promote the Educational Activities of the School

Our students are at the heart of everything we do at Bristol Free School Sixth Form. The most effective way for us to celebrate students' achievements and portray the full range of activities in which they are involved is through the use of school based photographs in printed material, displays, exhibitions and on our website. In addition to this, several curriculum subjects make use of video material for analysis and improvement of performance. This is a particularly important part of performance based subjects and associated exam courses.

We are seeking parental permission before using students' photographs in school publications, displays, exhibitions and press releases. It would be very difficult for us to gain written approval from every parent, on every occasion that we make use of images of students and we are therefore requesting prior approval from all parents. Approval will last for the duration of the student's time at Bristol Free School unless a parent withdraws their consent in writing to the School.

We would like to give you our personal assurance that **none of the images** will be used to support any documents or displays that may be viewed as negative or may cause distress to the child or the parent/carer. We would also take care **not to use individual names** of students alongside photographs for external publication without prior approval from parents/carers.
